

FOR IMMEDIATE RELEASE

Shady Business Offering New Twist In Protection

New Choice To Save Your Skin And Be Cool

***Ray Catchers Sun Sails* is presenting an exciting new idea in sun protection at the London Spring Home and Garden Show at the Western Fair April 8th to 10th.**

Ray Catchers Sun Sails are large canopies that are tensioned between 3 or more anchor points. The anchor points can be any existing solid structure; a house, trees or posts that can be installed where additional points are needed.

The shade cloth is strong but lightweight -comes in many attractive colours - **guaranteed for 10 years.**

Among the many exciting features about Sun Sails the most important is that they **provide 95% U.V. protection.** This means the ultimate sunscreen against sun damage to the skin such as sunburn and skin cancer.

Shade cloth is guaranteed not to fade, rip or mildew and when tensioned properly will not flap or sag in the wind or rain.

Ray Catchers Sun Sails will help you extend your outdoor living space with style while providing the most protection and comfort at an affordable cost.

They can cover child play areas as well as a complete deck or patio and can go where others can't and provide many years of outdoor enjoyment. **See the Sun Sails at the Home Show and be amazed!**
